Dear Ms. Agnifilo and Agnifilo Intrater LLP,

I am reaching out regarding a package I am mailing to your office for Luigi Mangione. Given your role as his legal counsel, I want to ensure the package is handled appropriately and that he is given the opportunity to decide whether to accept or decline its contents.

The package contains personal materials unrelated to legal matters and does not violate facility regulations. I am sending it to your office out of consideration for the logistical and procedural barriers of direct inmate mailing. I am requesting confirmation that:

The package will be received and acknowledged by your office.

Luigi will be informed of its existence and given the choice to accept or decline it.

If the package is refused, a reason for refusal will be provided.

I understand that not all materials may fall under legal privilege; however, as his attorney, I trust that you will act in good faith to ensure he has access to communications or materials that may be of significance to him. If any alternative procedures need to be followed, please let me know at your earliest convenience.

I appreciate your time and look forward to confirmation of receipt.
