

Zettelkasten Master Page - Feature Analysis & Combination

Source Files Analyzed

1. index.html (React/Vite App)

- **Status:** Not directly usable (requires build tools)
- **Features extracted:** Color scheme ideas, typography

2. zettl.html (Windows 98 Edition)

Features:

- ☒ Windows 98 desktop metaphor (complete)
- ☒ Draggable/resizable windows
- ☒ Taskbar with clock
- ☒ Start menu
- ☒ Desktop icons
- ☒ MySpace profile theme
- ☒ Zettel cards with hierarchy styling (trunk/branch/leaf/flower/fruit/bud)
- ☒ Dialog boxes for viewing zettels
- ☒ Music player mockup
- ☒ AIM chat client mockup
- ☒ Mobile responsive with toggle button
- ☒ localStorage persistence
- ☒ Hashtag management
- ☒ Y2K/Hyena Diva aesthetic

3. index 3.html (Windows XP Edition)

Features:

- ☒ Windows XP aesthetic
- ☒ Health dashboard with statistics (total, avg links, max depth, orphans)
- ☒ Advanced tools panel (collapsible)
- ☒ Hierarchy browser
- ☒ Tier-based zettel creation (trunk/branch/leaf/flower/fruit/bud)
- ☒ Bulk add functionality
- ☒ Backup/restore system
- ☒ Mobile responsiveness
- ☒ System health bar
- ☒ Trunk breakdown chart

4. kettlekorn_visualizer.html (React Chat Log)

Features described:

- ☒ Node-graph visualization
- ☒ File upload for .txt files
- ☒ Tag parsing from content
- ☒ Link parsing from content
- ☒ Drag-and-drop node positioning

- ☒ File browser tree view
- ☒ localStorage persistence

5. entropindex.css (Full OS Desktop)

Features:

- ☒ Complete OS desktop styling
- ☒ Multiple window types
- ☒ Cyberpunk/vaporwave aesthetic
- ☒ Apps: Browser, Paint, Minesweeper, Notepad
- ☒ Gemini AI chat integration styling
- ☒ Conspiracy pinboard styling
- ☒ Mobile responsive design

6. index.css (Nabu Archive Theme)

Features:

- ☒ Dark theme (deep blue/purple)
- ☒ Custom fonts (Cinzel, IBM Plex Sans, Space Mono)
- ☒ Ticker scroll animation
- ☒ Glow pulse animation
- ☒ Gold/teal accent colors
- ☒ Custom scrollbars

Combined Master Page Features

UI/UX

- [x] Windows 98/XP hybrid desktop metaphor
- [x] Draggable, resizable windows
- [x] Taskbar with Start menu and clock
- [x] Desktop icons for quick access
- [x] Mobile responsive with toggle
- [x] Multiple color themes (Y2K vaporwave)

Zettelkasten Core

- [x] Hierarchical organization (Trunk → Branch → Leaf → Flower → Fruit → Bud)
- [x] Card-based zettel display
- [x] Category-based organization (Location, Deity, Anomaly, etc.)
- [x] Tag system with filtering
- [x] Related zettels (bidirectional links)
- [x] Search functionality

Visualizations

- [x] List/tree view (hierarchical)
- [x] Network graph view (node-based)
- [x] System health dashboard
- [x] Statistics (total zettels, connections, depth)
- [x] Category distribution chart

Data Management

- [x] JSON data import/export
- [x] localStorage persistence
- [x] Create/edit/delete zettels
- [x] Backup/restore functionality
- [x] Bulk operations

Additional Features

- [x] Music player (visual only)
- [x] MySpace-style profile header
- [x] Animated elements (marquee, blinking)
- [x] Dialog system for detailed views

Data Structure

```
